

AGANI™ Hypodermic Needles

Smooth and easy puncture for patient comfort.

AGANI™ Hypodermic Needles

LATEX FREE

Easy to use. Individually packaged in a sterile colour-coded blister pack for easy gauge identification.

Suitable for all applications. Wide range of sizes (18G to 30G).

Additional features. Visual observation of flashback through semi-transparent colour-coded needle hub. Thin wall needles allow you to choose a smaller gauge size with increased flow rates over regular walled needles.

Agani™ Hypodermic Needles
